

ERSO Celebrations

June 2023

Special shout-out and congratulations to **Cynthia** for her **Chancellor's Outstanding Staff Award (COSA)**!!! The COSA acknowledges staff members whose thoughtfulness, initiative, and generosity have led to a significant positive impact within the Berkeley community.

Way to go, Cynthia!

Congratulations, Alice Wong – we SALUTE you!

"We would like to thank Alice Wong for going above and beyond on all of our bear buy orders and questions. Without Alice's help and support, we will not be able to complete a lot of our research project on time. Thank you again and we appreciate your service."

"When our BPIE (Berkeley Physics International Exchange) program coordinator came to me late last week requesting help for a field trip to Tahoe for her students on 5/20, I got very nervous. The department is relying on the program as a major source of revenue, and I really didn't want to tell her it wasn't possible, but I was extremely worried about liability issues. I brought my concerns to Alice, and she did an incredible job researching everything, considering all the angles, and called me to go over all that we'd need to do. She followed up with an email that had all the resources and answers I needed, and I'm delighted to say that the field trip is now set to happen as intended. Thanks for saving the day, Alice!"

"Love takes off the masks that we fear we cannot live without and know we cannot live within."

– James Baldwin
